# PROPERTIES & ADVANTAGES

- ➤ Synthetic-based formula provides increased protection for components.
- ► Extreme-pressure and anti-wear properties ensure optimal gear protection under the most severe service conditions.
- ► Very good compatibility with elastomers.
- ► Excellent synchromesh operation over the entire service life of the gearbox.
- ▶ Outstanding anti-foam and filterability properties provide effective lubrication under all conditions.
- ► Increased anti-rust and anti-corrosion protection.
- ► Suitable for the transmissions of many different European and Asian vehicles.
